Min första bakbok

Martin Svensson

Most children like helping and getting involved in the kitchen.

My first baking book is illustrated with inspiring pictures and contains 40 delicious recipes, adapted for children from 6 years and older. There is lots of variation with everything from cinnamon buns where the dough should rise in the cold, to strawberry 'sviss'.

The book is laid out in a very clear and pedagogical manner so that even a beginner can manage most of the stages in the recipe without the help of a grown-up.

My first baking book is the perfect present for your child, grandchild and why not even for their friend at the birthday party.

About the author:
