Soda, lemonad och snacks

Tove Nilsson

190x240, 128 pp

Thirst-quenching drinks, tickling carbon dioxide and naturally fermented soda. This is not about sickly sweet soft drinks and juice but about tasty non-alcoholic alternatives with a good balance between acidity, sweetness and bitterness.

In *Soda, lemonade & snacks*, you will learn everything about making home-made soda-syrup from berries, spices, herbs and fruit, fermenting your own sourish blood-orange soda, how to mix the perfectly balanced lemonade or hang along with the much talked-about kombucha-brewing trend now raging in the USA and which has started to make its way into Swedish drink libraries. In this book there are recipes for soda-syrups, ice tea, home brewed soda, lemonade, kombucha tea, ice coffee, floats, egg creams etc.

These cold drinks are washed down with salty and sweet snacks – flavoured popcorn, nuts, onion rings, home-made crisps with dip, pretzels, poppers and churros.
