## About the authors

**Eveline Johnsson** is a freelance photographer based in Stockholm. She photographs mainly food and people, the latter mainly as part of photographer duo *Vandal*.

**Amanda Hellberg** is a food creator with a love of grammar and language. Together Eveline and Amanda run the much-prized, vegetarian food blog *Våra oköttliga lustar*. On it they publish photos and recipes of simple, good food made with fresh produce in season, with the motive that everyone should, in an easy way, be able to try out vegetarian cooking. They also visit local growers and producers to write articles, and run courses on food photography.
