*Everything gets better with some greenery indoors!*

Here is all you need to know about houseplants and how to make your home a greener place.

In *Beloved houseplants* Linda Schilén shares invaluable information on houseplants and how to look after them. On top of that we are given masses of tips and inspiration on how to decorate our homes with wonderful plants.

*Beloved houseplants* contains all that you need to know about houseplants, such as feeding, planting, lighting, watering, choice of pots, how to ensure plant survival, origins and much more.

There is also a chapter on plants that do less well indoors, tips on plants to suit allergy sufferers, and diseases that plants might develop.

*Beloved houseplants* also has a plant index with photographs and a short summary of facts: aromatic plants, edible plants, easily maintained varieties and more.

There is also a breakdown of the top 5 houseplants that do well in the shade, in the sun and so on.

## About the authors

**Linda Schilén** is a gardener and an in-demand inspirational consultant as well as a lecturer. She is a plant expert for *Blomsterlandet* and features as an expert gardener on TV, radio and at exhibitions.

**Andrea Turander** is a photographer with a lot of experience. Andrea specialises in indoor decoration, lifestyle and portrait photography.
