Books

Trädgårdskalender för flera år

Ingrid af Sandeberg, Stella Westerlund, Annika Åberg
176x215, 160 pp

This garden calendar is the only one of its kind: a delightfully beautiful and inspiring book for all garden enthusiasts – for the beginner as well as for the more experienced gardener, for the balcony in a town flat and for the big garden in the countryside.

This garden calendar is both a practical aid where you can document your experiences and a source of inspiration that will last all year round. For several years, you can write down what you do in your garden, and then you can make use of your experiences. Every month contains tips about what you can do in your garden, greenhouse or with your plant pots indoors as well as delicious recipes which make use of what you will have in your garden (or in nature) just then.

Every page in the book is an artwork in itself, decorated with lovely colour drawings by Ingrid af Sandeberg.

About the authors:

Ingrid af Sandeberg is a well-known illustrator and has illustrated the popular *Vår kokbok* and several books about apples. **Stella Westerlund** is an art historian and writes about gardens; she works for the national Swedish Garden Association. **Annika Åberg** has worked with advertising and information.
