BÄÄ! Neulo & virkkaa suomenlampaan villasta

Sanna Vatanen

210x260, 152p

Lovely handiwork from quality wool

The wool of the original Finnish sheep breeds, in other words Finnish sheep, Kainuu grey and the Åland Islands sheep, keeps you warm, feels pleasant against the skin and repels moisture. They have a wide natural colour range, and is also famous for its excellent felting ability.

With the help of the versatile, modern and trendy instructions you are able to knit, crochet and felt something new for the home and for the whole family to wear. The instructions always give you the thickness of the yarn, so it is easy to change the material. You only need basic skills to carry out the work.

The book also contains information about the wool of the Finnish sheep breeds and their possible use without forgetting the aspects of environment.

About the author

Sanna Vatanen, the artist-designer, is known for her popular handicraft books, as well as exhibition and workshop projects. Sami Repo has taken the magnificent photos.
