Scarves and shawls inspired by country and city scenery

Take a walk in the countryside. Follow the path crossing the field down by the seashore. Let the sand run through your fingers. Back in the city, feel the cobblestones under your shoes. Admire the rugged brick textures, enjoy the perfume of roses and bask in the gentle sun. Inspired by country and city views, Johanna Meriläinen has created an elegant collection for every mood and season.

The book features some 20 designs: shawls, scarves and ponchos. Lavish materials, subtle colours with the occasional bright splash, interesting shapes and varying techniques welcome you to explore the scenery at your own pace.

About the author

Johanna Meriläinen is an artisan, mother of three girls and a passionate crocheter. Her previous book was *Virkatut korut* (Crocheted jewelry) (2016).
