Build a gingerbread castle, or a lighthouse, a fairground carousel, or... These are the gingerbread challenges for the builder-baker enthusiast.

So let's take a trip to Gingerbread Kingdom, where you'll see things that will impress, surprise and make you laugh, but most of all fire up your creativity! If you choose to make all 22 gingerbread creations in the book, all the guidance you need are in the sketches and instructions. But if you want to go it alone, the author has a whole host of tips, based on innumerable attempts at baking – some successful, some not. You might not get perfect results but that's not the point – as with all Christmas efforts, sometimes things just turn out the way they do and not how you thought they would, but it's still all fantastic in the end.

About the author
