DIY baskets for every purpose.

Multiple use baskets are made without special tools by using old familiar techniques such as sewing, braiding, crocheting, threading, gluing, or screwing that are applied creatively. Materials are, for instance, felt, carpet rags, bicycle inner tubes, iron wire, birch bark, wood and other natural materials, which you can use to make suitable baskets to keep stuff in and for home furnishings.

In the book, there are clear, illustrated instructions and a clear picture of every basket.

About the author

Susanna Uusitalo is a freelance editor and writer, whose expertise are lifestyle, interior decorating and hand skills. She has written numerous books on various themes for Moreeni.
