- Care for the knitwear

Neuleita

Saara Toikka

210 x 255, 144 p

Timeless style in knitwear.

The graphically clear, timeless knitwear designs by the young top-designer suit the style-conscious dresser regardless of age. The intentionally restrained colour world draws from the North's nature and delicate light.

The 20 knitwear designs in the book include both knitted sweaters and jackets, as well as suitable accessories to go with them, such as scarves, socks and mittens. The designs are the maker's own favourites from the knitwear she designed for herself over the years. The personal touch of the theme also shows in the book's pictures, in which the author and her friends model the knitwear.

About the author

Saara Toikka has a Master's Degree in Craft Design specialising in designing knitwear. She has also studied textile and clothing design in Lapland University and Reykjavik. As a designer she wants to combine designing with handicraft and stylish knitwear, which will also stand the test of time.
