## Neuleita vauvalle

Merja Ojanperä

210 x 255, 128 p

*Beloved designer knitting for her first grandchild.*

From socks to hats, pants to blankets – this book has everything you need to keep a new baby warm and cosy during the first year. And let's not forget the first big event: there's also a beautiful christening gown for the naming ceremony.

Charming photos portray 30 patterns, most of them easy and quick to make, with a couple of more demanding projects for the knitters eager to make a special treat for the newborn.

## About the author

Merja Ojanperä is one of the most popular knitwear designers in Finland. She first gained fame with her sock designs, and her knitting books were translated into many languages such as French, German and Russian. This book is her fifth.
