Stina Tiselius

200x240, 112p

*An entire book devoted to potholders! The first of its kind.*

**K**nitting and retro are in vogue. And yes, you can perfectly well knit potholders! This book is unique – there is no other book about potholders.

What gives rise to more granny memories than beautiful home-made potholders? Now you can knit them yourself! It is simple, doesn't take long and is perfect for those who want to start up knitting. You don't even have to buy yarn – you can use remainders. Why not surprise your guests with a home-knitted potholder at your next dinner party, definitely a most appreciated and useful present!

Knit classic holders, retro squares, modern cable-stitched or shabby chic holders, animals or imaginative monsters... here are even patterns for Easter and Christmas potholders. Or what about a knitted oven glove? Or a potholder which looks like a hat?

The book contains 30 patterns. They are all for knitting, but many have crocheted details. In the knitting and crocheting school at the end of the book, you can learn about basic techniques, illustrated with pedagogical photos. The potholders are photographed in various settings in a playful manner.

## About the author:

**Stina Terselius** works as a graphic designer. She is passionately interested in most forms of needlework, embroidery and knitting.
