Here is the book that increases the desire to sew, in both experienced sewers and beginners!

Sew yourself includes a wealth of simple, fun and useful sewing projects. Why not stitch up your own pillow cover, a cloth bag, or banners for festivities? These projects are useful in our everyday lives and inspire creativity. Now you can choose the fabrics yourself there is no end to the variations!

The book is divided into four sections: Kitchen, Children, Home and Practical. Here are descriptions for how to make table mats, oven gloves, toys for the pram, patchwork blankets, a make-up bag and much, much more!

For every project there is a clear description, an illustrated method which is easy to follow, and wonderful photographs.

About the authors

Annika Messing is the weaver and designer behind the much appreciated *Välkommen till virkligheten*. **Kicki Persson** is her colleague and a sewing fanatic. **Sari Bohlin** is a photographer and has captured the projects in their everyday application.
