Light knits for summer.

The clothes in the second knitting book by the young top designer are planned for the Nordic summer. The designs include different tops, knitted T-shirts and long-sleeved blouses.

Cotton and cotton-blended materials are emphasised, which are well-suited both for the summer's changing weather conditions, and also for year round use and dressing in layers. There are also crocheted patterns in addition to the knitted ones.

Typical of Saara Toikka the knitting patterns and colours are timelessly stylish and with clear design. The patterns form a uniform entity: the same knit-pattern surfaces are varied in very different knitted items. Each pattern has several different colour choices.

Knitting stylish knitwear does not have to be difficult – many of these knitted garments are easier to make than one would think.
