*In **The Christmas Book**, you'll find everything you need to decorate, prepare, and create in a new fashion for Christmas.*

Designer Lotta Glave shares her personal ideas and wonderful projects in this book. You'll find everything from Christmas tree decorations, tree-top stars, and Christmas crackers to wreaths made in various techniques, frilly ribbon-covered sticks, Christmas elves made of yarn and a chain of paper elves, as well as a candleholder Christmas tree and gift hangtags. You'll also find classic treats for the dessert table such as ginger cookies shaped by hand, toffee, and caramels.

Make the projects as Lotta does or let her inspire your own ideas! All you need are classic materials such as straw, paper, fabric, and yarn, but even newspaper, skewers, corks, gift wrap, and others recyclable materials can be used.

As an extra, the journalist, Liv Blomberg, shares some stories about Christmas traditions. Did you know, for example, that paper flowers are some of the oldest Christmas tree decorations and that, at one time, paper decorations were particularly stylish?

About the Author
