Sari Bohlin, Annika Messing, Christina Persson
190x230, 112p

Table cloths, pillow cases, baby bibs, bags, oven gloves, curtains, cloth books, pennants, tray holders, boa snake, tea towels for the kitchen, and lots of other items to sew!

Needlework has never been more popular: getting together for a sewing session with friends is a social habit that is making a comeback!

Forget your old magazines and instead get out this modern sewing book! Modern as regards the sewing projects, which are: good for everyday use (only practical items), ecologically aware (retro-fabrics are especially suitable) and inspiring (variation has no boundaries).

The book is divided into four sections: Kitchen, Children, Home and Practical. Instructions for sewing an apron, table mat, oven glove, a pram mobile, bunny-friend, patchwork quilt and pennants. Cushion covers, sponge bag, bookmark, laptop case, and a trendy cloth shopping bag of course. With lots more besides!

For every project there is a clear description and an illustrated 'template' which is easy to understand. The book is full of lovely photos taken in everyday situations. This is a book to make you want to sew, a book both for the beginner and for those already with a little experience!

About the authors:

Annika Messing is an expert on crochet and the designer behind the popular book *Welcome to the world of crochet*. **Christina Persson** is in the habit of sewing the indispensable cloth shopping bag to give away as a present.
