## Tälj för kök och trädgård!

Jörgge Sundqvist  
190 x190 mm, 84 p

*This book about whittling contains descriptions of beautiful and practical items for the kitchen and the small garden. The twenty handcraft projects offer many possibilities for variation at varying levels of difficulty. The author explains how to make spoons, plant markers, cutting boards, wooden hooks, plant supports, trellises, shelves, etc.*

After many years of use, whittled objects acquire a smooth and beautiful surface with a fine patina. In this book, you will learn several whittling grips to give you control, power and skill in your work. You also get tips on painting, finishing, and decorating by knife cutting.

Jörgge Sundqvist is a craftsman who nurtures a fancy for working in fresh and dried wood with hand tools. In this new book, he teaches the techniques that make crafting a lifelong pleasure.

## About the Author

**Jörgge Sundqvist** is a craftsman who loves working fresh and dried wood with hand tools. He is a tenth-generation craftsman who has been strongly influenced by Swedish household production crafts and folk art from the 17th and 18th centuries.
